

Flipped Classroom and Task-Based Lesson Plan: Talking About Home and Family

English level: A1
Students' age: 5-8
Main target skill: Speaking and Listening
Topic (Function of language): Talking about family members and rooms in the house.
Learning Objective: By the end of the lesson, students will be able to identify and pronounce basic vocabulary related to home life (family members, rooms, and objects) and ask and answer simple questions using: • <i>Where is...?</i> • <i>Who is...?</i> Learning Outcome: By the end of the lesson, students will be able to present a simple map of their house and introduce family members and rooms using basic English vocabulary and simple sentences during a role-play activity.

Pre-task (Flipped Classroom Activity)

1. Students watch a short video about rooms in a house and family members.
2. Students repeat the vocabulary words from the video.
3. Students draw a simple picture of their house and family members to bring to class.

Task Cycle - During Task

Task and planning

- 1) The teacher introduces the lesson objective and vocabulary using flashcards.
- 2) Students review vocabulary through a circle game:

Example:

Teacher says: Show me mom Students point to the correct flashcard.

- Students receive a Home Map Worksheet (simple house floor plan).

Teacher introduces the problem scenario:

"Your friend from another country is visiting your house. Show them your home in English."

3) Students work in pairs.

Student A: Visitor

Student B: Host

4) The host explains the house using the worksheet.

Example sentences:

Material

Video:

<https://www.youtube.com/watch?v=168xwPpHF-s>

Other materials:

- Flashcards with images of family members and rooms
- Simple house drawing activity

Material

In-class materials

- **Flashcards with images and words for:**
 - mom
 - dad
 - brother
 - sister
 - kitchen
 - bedroom
 - table
 - chair
 - bed

Home Map Worksheet

A simple floor-plan template where students place rooms and family members.

- This is the kitchen.
- This is the bedroom.
- My mom is in the kitchen.
- My brother is in the bedroom.

5) Students practice asking and answering questions:

- Where is the bed?
- Who is in the kitchen?

The teacher walks around the classroom monitoring pronunciation and vocabulary use.

Report

Each pair shares their home map role-play with the class.

Students explain:

- The rooms in their house
- Where objects are
- Who is in each room

The teacher observes speaking performance and interaction.

Post task

Listening quiz, students complete a short listening activity:

They hear sentences such as:

- Mom is in the kitchen
- The bed is in the room and students choose the correct picture

Teacher Feedback

The teacher provides feedback on:

Audio recordings with simple sentences for listening practice.

Mini-whiteboards and markers for quick sentence writing activities.

Pictures representing rooms and family members used during the listening quiz.

Assessment Material

Teacher formative assessment rubric to evaluate:

- Pronunciation
- Vocabulary use
- Listening comprehension
- Participation

- Pronunciation
- Vocabulary use
- Sentence formation
- Participation

Formative Assessment

Role play speaking test (40%)

Criteria:

- pronunciation
- vocabulary use
- Interaction

Listening quiz (30%)

Students identify the correct picture after hearing a sentence.

Mini-whiteboard activity (20%)

Students write two sentences used during the role play.

Reflection participation (10%)

Students discuss how families and houses can be different in other cultures

5. Step 5 evidence: forum participation

 **Re: Discussion Forum - Phase 2 - Practical component - Educational and Pedagogical Practice**
de DIANA CAROLINA ACEVEDO - jueves, 26 de febrero de 2020, 15:07

Hi tutor and classmates,

I have been reflecting on my current teaching practices and decided to complete the exercises suggested by Duplices in the Lesson Planning resource. Even though this isn't a formal requirement in the guide, I think it would be incredibly helpful for us to share our individual reflections here.

By seeing what each of us is experiencing at our practice, the challenges, the student's levels, and what's working, we can get on the same page. I believe this common ground will help us design a stronger lesson plan together.

- 1. What goals and standards are important?** The primary goal is to increase their speaking skills on students between 5 and 8 years old, which is the specific age group I am currently working with.
- 2. What background knowledge do students have?** The students currently have an A1 English level. They have foundational skills in grammar, writing, and listening however, they struggle to construct full phrases independently. They have the vocabulary but cannot yet apply it to functional speech.
- 3. How long will it take to teach the lesson and what materials are needed?** The lesson will last 120 minutes as specified in the guide. The materials will focus 100% on technology, specifically utilizing GitHub as a platform to host and deliver the digital resources we create.
- 4. What big ideas are important?** The core concept I have in mind is Speaking by My Own Will. The aim is to use technological tools to empower students to construct their own phrases and move from passive vocabulary recognition to active usage.
- 5. What processes will enhance learning of basic skills of the lesson?** I will implement a Task-Based strategy. This begins by assessing their current speaking levels through a diagnostic pre-task and building the lesson upward based on those results.
- 6. How is the lesson relevant to students lives?** By moving beyond simple repetition and focusing on authentic interaction, students will be able to communicate with one another. This promotes collaborative learning and makes the language feel useful in their social development.
- 7. What tasks will the students complete?** The students will follow the three core stages of a task cycle: a pre-assessment (to activate knowledge), an in-class group task (focused on meaning-making), and a post-assessment (to provide feedback and reflection).
- 8. How will the lesson be differentiated to meet the needs of all the students?** By emphasizing collaborative work, we create a low-anxiety environment where students feel supported by their peers. This reduces the fear of making mistakes and encourages every student to participate regardless of their individual pace.
- 9. How will the students change in their thinking because of this lesson plan?** By focusing on basic, functional English, students will begin to relate the language to their home lives. They will start to see English as a tool they can apply in their daily conversations.

Looking forward to hearing from you.

Best regards,
Carolina Mounier

de MARGARETH CAROLINA NINO MARTINEZ - domingo, 15 de marzo de 2025, 20:39

Hello everyone,

I would like to share with you the link to the document where we have been working on the collaborative activity. This document was initially created by me, and since then our group members have been reviewing it and making contributions to improve and complete the work.

You can access the document through the following link:

[Phase 2 - Practical component - Educational and Pedagogical Practices.docx](#)

Please feel free to review it and add any additional suggestions or improvements that you consider relevant for the final version of the activity.

Thank you.

Educational Resource for Content Development - Phase 2 - Practical Component - Educational and Pedagogical Practice
Phase 2 - Practical Component - Educational and Pedagogical Practice - Evaluation Rubric and Activity Submission

Re: Discussion Forum - Phase 2 - Practical component - Educational and Pedagogical Practice
de DIEGO ERICK LOPEZ HERNANDEZ - jueves, 5 de marzo de 2025, 23:45

Hello dear classmates and tutor

Hereby I leave the Lesson plan:

Lesson Plan (120 min - 2 hours)
Target population: A1 learners, ages 5-8 years
Topic: Basic & functional English vocabulary linked to home life (family members, rooms, everyday objects)
Main target skill: Speaking & Listening
Methodologies: Flipped Classroom + Task-Based Intercultural Learning (TBIL) with a Problem-Based Learning (PBL) twist

1. Learning Objective

By the end of the session students will be able to:

- Identify and pronounce 10 words about home (e.g., mom, dad, brother, sister, kitchen, bedroom, table, chair, bed, toy).
- Use simple sentences to ask and answer "Where is ...?" and "Who is ...?" (e.g., "Where is the kitchen?" - "It's here."; "Who is in the bedroom?" - "My mom.")

2. Materials

- Pre-class video: https://www.youtube.com/watch?v=168wPpHF-s&list=RD168wPpHF-s&start_radio=1 (2:11 min) - short animated clip showing a family moving through a house, highlighting target vocab (hosted on school LMS Google Classroom).
- Flashcards (picture + word) for each vocab item.
- "Home Map" worksheet - simple floor-plan template with blank boxes for rooms.
- Audio recordings of native-speaker sentences (listening prompts).
- Mini-whiteboards & markers (for quick answers).
- Rubric for formative assessment (speaking clarity, vocab use, listening comprehension).

3. Structure (120 min)

Time Phase Activity & Methodology

Reference

0-10 min
Warm-up / Review Quick circle: "Show me the picture of mom - point and say the word." Flipped model (Franc, 2014, p. 122) verifies pre-class video comprehension.

10-25 min
